

We create opportunity for people to thrive through innovative housing solutions.

DONATION OF GOODS & SERVICES

An investment in Habitat for Humanity Grey Bruce is an investment in your community and your brand. 100% of your donation directly supports building affordable housing efforts in Grey & Bruce.

donate construction materials & services

It takes a lot of resources and raw materials to make the dream of homeownership a reality for families. Join a group of leading Canadian companies who are helping us to achieve our mission through donations of building products and services, including:

- **building materials:** tools, flooring, electrical, plywood, lumber, joists & trusses, windows, doors, furnaces, hot water tanks, etc.
- **professional services:** consultants, architects, civil, electrical and mechanical engineers
- **trades services:** plumbing, electrical, drywall, roofing, concrete forming, HVAC

When you donate labour and services to Habitat for Humanity Grey Bruce invoice Habitat as you would any other customer. We pay the invoice in full, in return, you make a cash donation and receive a Charitable receipt for the cash amount. When you provide a value of materials donated, we offer a Charitable receipt for the cash amount.

gifts of corporate services

When it comes to building communities, every gift of products and services can make a difference. These donations help us to be more efficient and keep our operating costs low, enabling us to stretch each donor dollar farther, building more affordable homes for families in your community.

Some examples of corporate gifts include:

IT services and equipment
Consulting and accounting services
Photography and graphic design
Transportation services
